Washington, DC 20460-0001

Re: Procedures for Chemical Risk Evaluation Under the Toxic Substances Control Act (TSCA), 90 Fed. Reg. 45690 (Sept. 23, 2025)

Dear Ms. Summers:

The Polyurethane Manufacturers Association (PMA) is pleased to support the American Chemistry Council's (ACC) comments regarding the U.S. Environmental Protection Agency's request for public comment on its proposal to recommend revisions to the 2024 framework rule amending the Procedures for Chemical Risk Evaluation Under the Toxic Substances Control Act (TSCA) published in the Federal Register on September 23, 2025. The PMA believes that these enhancements will meet the statutory requirements of TSCA and improve the efficiency and effectiveness of the Risk Evaluation process.

If you have any questions or need further information, please feel free to contact me at paul@erapolymerusa.com or 814-232-2126.

Sincerely,

Paul Waite

Government Affairs Chair
